THERAPY & WELLNESS PROFILE

Calm Score: 8.5/10

Energy Score: 7.5/10

Focus Score: 6.2/10

PRIMARY RECOMMENDATION:

Stress Relief, Meditation, and Deep Sleep

SECONDARY RECOMMENDATIONS:

- Anxiety Reduction
- Emotional Balancing
- Parasympathetic Activation

THERAPEUTIC EXPLANATION:

- The high temporal density (116.2 BPM) creates an uplifting, high-arousal energy.
- Minimal pitch variation (123 Hz) ensures a stable, non-intrusive sonic environment.
- Clean note articulations help in maintaining clear cognitive boundaries during work.
- The recurring 'None' note movement provides a familiar anchor for the mind.

AI COGNITIVE REASONING

Audio features strongly correlate with a Day auditory profile.

Tempo (116.2 BPM) suggests Day activity

Pitch variation (123.2 Hz) matches Day profile
